Royal Baking Powder

Is the only baking powder yet found by chemical analysis to be free from all impurities and absolutely pure. This perfect purity results from the exclusive use of cream of tartar specially refined and prepared by patent processes which totally remove all the tartarate of lime. The cost of this chemically pure cream of tartar is much greater than any other, and it is used in no baking powder except the "Royal."

Dr. Belwer G. Lore, former's audited chemic for the

Dr. Edward G. Love, formerly analytical chemis, for the U.S. Governmens, who made the analyses for the New York State Board of Health in their investigation of baking pow-ders, says of the purity and wholesomeness of the "Royal";

"I find the Royal Baking Powder composed of pure and wholesome ingredients. It is a cream of tartar powder, and does not contain either alum or phosphates, powder, and does not come or other injurious substance.

(Late U. S. Gov't Chemist) "E. G. LOVE, Ph. D."

Prof. Love's tests, and the recent official tests by the United States and Canadian Governments, show it Royal Baking Powder to be suferior to all others strength and leavening power.
